

A LEVEL PHYSICS

DAILY WORKOUT

Year 2: July - October

Question Index

BOOK 4

Daily Workout - Book 4 - July

	Question 1	Question 2	Question 3
1 st	Symbols and Units		
2 nd	Logs (base 10)	Values and units	Definitions
3 rd	Logs (base 10)	Values and units	Sinusoidal curves
4 th	Logs (base 10)	Values and units	Definitions
5 th	Logs (base 10)	Values and units	suvat calculation
6 th	Practical – Pendulum		
7 th	Logs (base 10)	SHC	Definitions
8 th	Logs (base 10)	SHC	Energy levels calculation
9 th	Logs (base 10)	SHC	Definitions
10 th	Logs (base 10)	SHC	Photon calculation
11 th	GCSE Practical – SHC		
12 th	Logs (base 10)	Changing state	Definitions
13 th	Logs (base 10)	Specific latent heat	Impulse
14 th	Logs (base 10)	Specific latent heat	Definitions
15 th	Logs (base 10)	Specific latent heat	EM spectrum calculation
16 th	GCSE Practical – Changing state		
17 th	Logs (base 10)	Gases	Definitions
18 th	Logs (base 10)	Gases	Moment calculation
19 th	Logs (base 10)	Gases	Definitions
20 th	Logs (base 10)	Gases	Meters
21 st	GCSE Practical – Pressure and volume of a gas		
22 nd	Natural logs (base e)	Radiation	Definitions
23 rd	Natural logs (base e)	Radiation	EMF calculation
24 th	Natural logs (base e)	Radiation	Definitions
25 th	Natural logs (base e)	Radiation	Internal resistance
26 th	Natural logs (base e)	Radioactive Decay	Definitions
27 th	Natural logs (base e)	Radioactive Decay	Double slit
28 th	Natural logs (base e)	Radioactive Decay	Definitions
29 th	Amazon review	Radioactive Decay	TIR
30 th	Natural logs (base e)	GCSE Practical - Radioactive decay	
31 st	Practical - Radioactive decay		

Daily Workout - Book 4 - August

	Question 1	Question 2	Question 3
1 st	Logs	Magnetic fields	Definitions
2 nd	Logs	Magnetic fields	Standing waves
3 rd	Logs	Magnetic fields	Definitions
4 th	Logs	Magnetic fields	Forces on a slope
5 th	GCSE Practical – Magnetic field lines		
6 th	Logs	Electromagnets	Definitions
7 th	Logs	Electromagnets	Resistors
8 th	Logs	Electromagnets	Definitions
9 th	Logs	Electromagnets	Potential divider
10 th	GCSE Practical – Electromagnets		
11 th	Logs	Fleming's LHR	Definitions
12 th	Logs	Fleming's LHR	Resistivity
13 th	Logs	Fleming's LHR	Definitions
14 th	Logs	Fleming's LHR	Particle physics
15 th	GCSE Practical – Force on a wire		
16 th	Logs	Transformers	Definitions
17 th	Logs	Transformers	Springs
18 th	Logs	Transformers	Definitions
19 th	Logs	Transformers	Materials
20 th	GCSE Practical – Transformers		
21 st	Derivation	Log graphs	
22 nd	Derivation	Log graphs	
23 rd	Derivation	Log graphs	
24 th	Derivation	Log graphs	
25 th	Derivation	Log graphs	
26 th	Practical with a log graph		
27 th	Derivation	Log graphs	
28 th	Derivation	Log graphs	
29 th	Derivation	Log graphs	
30 th	Derivation	Log graphs	
31 st	Practical with a log graph		

Daily Workout - Book 4 - September

	Question 1	Question 2	Question 3
1 st	Symbols and Units		
2 nd	Values and units	Circular motion	Fields
3 rd	Values and units	Circular motion	Fields (gravitational)
4 th	Radians	Circular motion	Fields (gravitational)
5 th	Radians	Circular motion	Fields (gravitational)
6 th	Radians	Circular motion	Fields (gravitational)
7 th	Practical – Circular motion		
8 th	Values and units	Circular motion	Fields (gravitational)
9 th	Converting units	Circular motion	Fields (electric)
10 th	Converting units	Circular motion	Fields (electric)
11 th	Circular motion	Electricity calculation	Fields
12 th	Differentiation	Circular motion	Fields
13 th	Practical – SHM (horizontal springs)		
14 th	Differentiation	Circular motion	Graphs sinusoidal
15 th	Differentiation	SHM	Graphs sinusoidal
16 th	Differentiation	SHM graphs	Velocity-time graph
17 th	Differentiation	SHM graphs	Velocity-time graph
18 th	Differentiation	SHM graphs	Velocity-time graph
19 th	Practical – SHM (pendulum)		
20 th	Uncertainty	Atomic nuclei	Fields (electric)
21 st	Uncertainty	Atomic nuclei	Fields (electric)
22 nd	Uncertainty	Atomic nuclei	Fields (electric)
23 rd	Uncertainty	Atomic nuclei	Fields (electric)
24 th	Uncertainty	Atomic nuclei	Fields (electric)
25 th	Practical – Exponential decay		
26 th	Derivation	SHM	
27 th	Derivation	SHM	
28 th	Derivation	SHM	
29 th	Derivation	SHM	
30 th	Measurement and uncertainty		

Daily Workout - Book 4 - October

	Question 1	Question 2	Question 3
1 st	Temperature	Gases	Magnetic fields
2 nd	Temperature	SI base units	Magnetic fields
3 rd	Temperature	Gases	SHM
4 th	Symbols	Gases	Graphs
5 th	Symbols	Gases	Graphs
6 th	Gases	Gases	Mean square speed
7 th	Gases		
8 th	Gases		
9 th	Practical – Gases and absolute zero		
10 th	Particles	Gases	Graphs
11 th	SHC		
12 th	Particles	Momentum	
13 th	Particles	Kinetic energy	
14 th	Particles	Ratios – Gravitational	
15 th	Particles	Ratios – Electrostatic	
16 th	Practical - SHC		
17 th	Particles	Gases	Work function
18 th	Particles	Graphs	
19 th	Particles	Ratios - Pendulum	
20 th	Practical – Damped SHM		
21 st	Particles	Vernier scale	Circuits
22 nd	Particles	Micrometer	Electron energy levels
23 rd	Particles	Gases	Diffraction
24 th	Practical – Damped SHM		
25 th	Base units	Fleming's LHR	Percentage uncertainty
26 th	Base units	Transformer	Fields (electric)
27 th	Base units	Gases	SHM graphs
28 th	Base units	Circular motion	Forces
29 th	Values and units	Standing waves	Graphs
30 th	Values and units	Batteries	Suvat
31 st	Symbols and units
